

Assignment #1

From the Sag et al. textbook

Chapter 3, p. 88, problem 1.
[This is basic.]

Chapter 4, p. 122, problems 1 & 2
[Problem 1 is perhaps a bit tedious. Stop when you're truly fed up if you're sure you got the point and have demonstrated that you've got it.]

Chapter 4, p. 127, problem 8
[Don't know the answer myself. Might be fun.]

Chapter 5, p. 161, problem 1
[We didn't get this far in class, but do the problem anyway.]

Due: By e-mail on Saturday or in my box by the end of Friday.

Barring unforeseen calamities, your problem sets will be returned in class on Monday.
