

MITOCW | MIT15_071S17_Session_1.4.01_300k

Welcome to our first recitation.

My name is Nataly.

Throughout the upcoming videos, we will get more familiar with R and review some basic functions to read, visualize, and analyze data sets.

We will be looking at nutritional data of over 7,000 foods distributed by the US Department of Agricultural.

Let's get started.
