Alternatives and New Approaches
to
Site and Infrastructure Technologies
II

As you work on your site plan schematics you should continue to develop and investigate the concepts related to the alternative infrastructure /technologies you are working on.

For March 5th site plan pin-up you should include a small poster indicating the components and attributes of your system as they relates to site development.

They should include
- Design principles
- Design techniques (construction)
- Future projection

Due Date for preliminary findings: Feb 19

<u>Format</u>

18X24 Poster with drawings and images explaining your findings – keep text on poster to a minimum.
